A Guide to the Best

Plants, Shrubs and Trees
That Grow
Spring Edition, 1930

1876

ALLEN L. WOOD

1930

Woodlawn Nurseries

ROCHESTER, N. Y.

891 GARSON AVE. AT CULVER ROAD

Dear Friend and Customer:

It gives me great personal pleasure to again greet every one of you folks who receive a copy of this book, because I know you are all keenly interested in the delightful pastime of improving and beautifying your home surroundings and making your gardens and orchards profitable.

I feel sure we are all going to have a most happy time this season. To help you in fulfilling your desire for beautiful, tastefully-arranged ornamental planting we have prepared for you this book, which I feel sure you will find truly "A Guide to the Best Plants, Shrubs and Trees that grow." The book has been entirely rewritten with many new illustrations. The descriptions are plain and helpful and there are many suggestions about what to use and how to care for the different kinds of plants.

In addition to this book, I know you are all keenly interested in our weekly Radio Landscape Talks which are broadcast over WHAM, WGY and WMAK. We expect to make our series of talks this spring more interesting and helpful than ever. Mr. Price, who does the talking, is planning some new features which you will all want to hear about

Best of all, I am happy to report that I never saw, in all my experience of over fifty years in the nursery business, any finer shrubs, trees and plants than we have selected for you this year. Many years ago, I determined to produce only the best that grows, the kind which will most surely give satisfaction. I am glad, too, that we are able to keep our prices, as always, surprisingly reasonable.

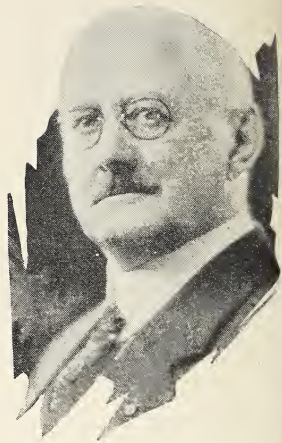

As active head of this concern, I give you my personal pledge that all your orders will be cared for in the most satisfactory manner possible. Shipment will be made at the proper planting time with stock which, I know, cannot be surpassed anywhere. I would consider it a personal favor, if you are not entirely satisfied with the stock when you receive it, to return it to me at once at my expense, and I will cheerfully refund the money you have paid for it.

I hope you will make good use of this book and if I can be of any special assistance to you in any way, let me know. An alphabetical index will be found on the inside back cover. An order blank is in the back of the book.

Hoping to hear from every one of you, I am

Cordially yours,

Allen L. Wood

Partial View of Our Packing Cellar—With a Glimpse of One of Our Nurseries in the Background

Unexcelled Facilities

OUR farms where we grow our stock are located in the beautiful and fertile Genesee Valley where conditions are ideal for producing the best. Our packing cellar where your orders are filled covers over an acre of ground and is especially constructed to protect all stock from sun and wind until it is shipped.

PACKING

No expense is spared in packing each order, however, small or however, large so that it will reach you in fresh condition. Large shipments of trees and shrubs are packed in strong, paper-lined wooden boxes. Smaller shipments are baled with damp moss about the roots and the tops protected with flags as illustrated on this page. We have frequent compliments upon the unusually thorough way we pack our stock.

IT IS EASY TO ORDER

Just fill in the enclosed order blank in the back of this book, being particular to specify just what is wanted. Your name, post office and shipping point should be plainly written to avoid mistakes. If in doubt as to whether your stock should go forward by express, freight or parcel post, leave it to us and we will use our best judgment. The prices are F.O.B. Rochester except as noted.

Terms—Cash with order. We ship C.O.D. if 25% of the total amount of your order is sent in advance.

How to Remit—Preferably by check, post office money order, express money order, draft or registered letter.

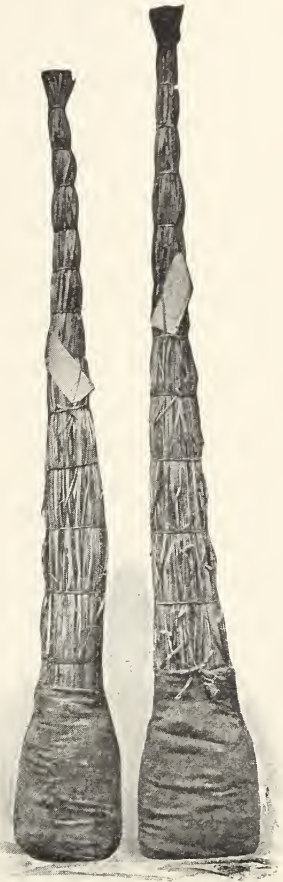

Rates—Five or more at ten rate, fifty or more at hundred rate, four hundred or more at thousand rate.

Parcel Post is often cheaper and more convenient than express for small packages. Where extra charges for postage are shown in this book, we prepay up to the fourth parcel post zone. Where postage is not included and for points beyond the fourth zone, we collect the amount of postage at time of shipment.

Shipping Seasons—In the spring for this locality usually from about March 1st to May 15th or a little later. To Southern points we commence shipping in January. In the fall from about October 15th until the ground freezes.

SAVE MONEY BY ORDERING EARLY

Ten per cent discount on all orders accompanied by remittance received on or before March 1st, 1930. Five per cent discount between March 1st and April 1st, 1930.

This is the way we pack small shipments so that they reach you in perfect condition

Certificate No. 18.

State of New York
DEPARTMENT OF FARMS AND MARKETS
Berne A. Pyrke, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

This is to Certify that the nursery stock of Woodlawn Nurseries of Rochester, County of Monroe, State of New York, has been duly examined in compliance with the Agriculture and Markets Law and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until September 1, 1930.

BERNE A. PYRKE,
Commissioner.

Dated, Albany, N. Y., September 1, 1929.

B. D. VAN BUREN,
Director, Bureau of Plant Industry.

Shrubs

FLOWERING shrubs are without doubt the most useful and easiest to grow of all landscaping materials. Without shrubbery a house no matter how expensively built seems stark and bare like a factory building. When tastefully planted with shrubs it becomes cozy, warm and inviting as if it grew out of the soil on which it stands. The humblest cottage is glorified and the largest mansion is made homelike.

In fact, nowadays, proper planting and landscaping around the exterior is considered as important as suitable furnishings and decorations on the interior of the home and incidentally adds hundreds of dollars to the value of property.

By careful selection of varieties you can have something in bloom throughout the growing season. The classified list of varieties on Page 10 will help you. All of the descriptions given in this book are carefully prepared so that you will know how your shrubs are going to look, what height they grow to and where they will fit best in your planting scheme. Woodlawn shrubs are all strong, well rooted stock transplanted from the open ground.

Althea Double Red Boule de Feu

Althea (Rose of Sharon)—The altheas are fine, free growing, erect shrubs which are easy to cultivate. They bloom in late August and September when scarcely any other tree or shrub is in blossom. They attain a height of 10 to 12 feet. Often used as tall growing hedges. We have the following varieties:

Lady Stanley—Double Pink.

Ardens—Double Purple.

Boule de Feu—Double Red.

Jeanne D'Arc—Double White.

2 to 3 ft., 50c each; 10 for \$4.50

Tree Althea—Same as bush but grown in tree form with single stem. Colors: Double pink, double red, double purple, double white.

3 to 4 ft., \$1.00 each

Flowering Almond—Double pink. Early spring flowering shrub covered with double blossoms like small roses before the leaves appear. Grows 5 to 6 ft. 2 to 3 ft., \$1.00 each

Double Flowering Almond

Plants arrived at noon and were in the ground at 5 P. M. Every one was in perfect condition and each a fine plant.

Glen Falls, N. Y.
May 16, 1929

Mrs. C. P. Thomas

For 5 cents per plant extra we prepay postage to fourth parcel post zone

New Red Leaved Barberry

New Red-Leaved Barberry—This new red barberry is increasing rapidly in popularity wherever it has been used. It is very useful and striking and produces an unusual artistic effect. Its foliage is a rich lustrous bronzy-red. It resembles Barberry Thunbergi in all respects except color. Full exposure to the sun is necessary to make the color intense and brilliant as the summer advances. Our stock is the best we have ever had. Strong well-rooted two-year-old plants, 85c each; 10 for \$7.00.

Barberry Thunbergi (Japanese Barberry) —Without doubt the most generally planted dwarf growing shrub, practical for all purposes where beautiful foliage effect is desired. It is uniformly bushy and rounded in form and is easy to keep trimmed for formal effect. Excellent in front of taller shrubs. The autumn foliage is brilliant scarlet and bronze and the branches are studded with crimson berries which remain on the plants all winter. See Page 14 for Barberry for hedge planting.

18 to 24 in., 30c each; 10 for \$2.50

2 to 3 ft., 40c each; 10 for \$3.00

I have intended for a long time to write and tell you what marvelous stock you sent me this spring. Our barberry hedge looks better than the one we had before, that was fully grown. It was a pleasure to plant what you sent and a constant source of pleasure since.
Westfield, Pa. S. Carolyn March

Two New Shrubs

Illustrated on back cover

Beauty Bush—An exceedingly handsome shrub attaining a height of 6 to 9 ft. It is perfectly hardy and the long arching branches are covered in spring with clusters of small tubular or trumpet-shaped flowers borne in such profusion that the bush is one cloud of delicate pink with its gracefully drooping branches reaching to the ground.

Strong two-year-old field grown plants, \$2.00 each.

Korean Spirea—This new shrub is acclaimed as the finest Spirea yet discovered. It is strong growing, attaining a height of 4 to 6 ft., is perfectly hardy and forms a large globe-shaped bush which is covered with large rounded clusters of snowy-white flowers marked with darker eyes.

Strong, two-year-old, field grown plants, \$1.50 each.

Everblooming Butterfly Bush

Butterfly Bush (Summer Lilac) — This beautiful shrub matures rapidly and produces beautiful lilac colored flowers in profusion. Blossoms the entire summer. Splendid for cutting for bouquets. The entire bush should be cut back to the ground each spring.

50c each; 10 for \$4.00

10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Cornus Elegantissima

Cornus Elegantissima (Variegated Leaf Dogwood)—Grows 5 to 6 ft. high with purplish-red branches and beautiful silver variegated foliage. One of the finest of the variegated leaved shrubs. Can be kept trimmed to compact form by pruning. Small white flowers.

2 to 3 ft., 75c each; 10 for \$6.50

Cornus Sibirica (Red-Twigged Dogwood)—Grows 6 to 10 ft. high with clusters of fine white flowers succeeded in fall by ornamental berries. Stems and branches are blood red, making them very striking and attractive, especially in winter when the leaves are off.

2 to 3 ft., 50c each; 10 for \$4.50

Kerria Japonica—A handsome green-branched shrub growing 4 to 5 ft. Graceful, slender, drooping branches with a wealth of rich, dark yellow flowers in June and continuing to some extent all summer.

2 to 3 ft., 50c each; 10 for \$4.50

Golden Elder

Golden Elder—The golden-yellow foliage of this variety contrasts beautifully with other shrubs. Flowers are white followed by clusters of berries which are used for pies, jam and wine. Grows naturally 10 to 12 ft. high but can be pruned into a compact bush of much smaller size.

3 to 4 ft., 50c each; 10 for \$4.50

Honeysuckle, Upright, White

Bush Honeysuckles

LONICERA

Honeysuckle, Upright, White—A vigorous growing shrub of erect habit bearing handsome delightfully fragrant pure white flowers in spring and early summer followed by showy berries. Ultimate height 8 to 10 ft.

3 to 4 ft., 50c each; 10 for \$4.50

Honeysuckle, Upright, Red—Similar to the above with bright red flowers striped with white, followed by berries.

3 to 4 ft., 50c each; 10 for \$4.50

Honeysuckle, Upright, Pink—Clear rosy-pink flowers followed by attractive berries borne on very vigorous tall growing shrubs often attaining a height of 10 to 12 ft.

3 to 4 ft., 50c each; 10 for \$4.50

Honeysuckle Morrowi (Japanese Bush Honeysuckle)—A spreading variety developing into a rounded bush 6 to 8 ft. high. Pure white flowers followed by pretty blood-red berries.

3 to 4 ft., 50c each; 10 for \$4.50

Deutzia, Lemoine

Deutzias

Deutzia Lemoine—A very desirable dwarf growing shrub attaining height of about 4 ft. Pure white flowers in great profusion.

2 to 3 ft., 50c each; 10 for \$4.50

Deutzia, Pride of Rochester—Grows 6 to 8 ft. high, bearing double white flowers tinged with pink in May and June. One of the most desirable Deutzias. Illustrated on Page 13.

3 to 4 ft., 50c each; 10 for \$4.50

Deutzia Crenata—Similar to Pride of Rochester with double pink flowers.

3 to 4 ft., 50c each; 10 for \$4.50

Deutzia Candida (Snowflake Deutzia)—Grows 8 to 9 ft. high, pure white double flowers in June.

3 to 4 ft., 50c each; 10 for \$4.50

Deutzia Gracilis (Slender Deutzia)—One of the best dwarf shrubs growing about 3 ft. high. Pure white flowers in great profusion. Fine for growing in front of taller shrubs.

12 to 15 in., 50c each; 10 for \$4.50

10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

A Fine Block of Butterfly Bush on Our Valley Farm—Privet in Foreground. (See page 5)

Three Highland Park Lilacs
Ludwig Spaeth, Marie La Graye, Michael Buchner

Lilacs

NO home grounds, however, small are complete without a few lilacs. "Lilac-time" is heralded each spring as a great event, especially here in Rochester where we have at Highland Park one of the finest and most complete collections of lilacs in the world.

FRENCH HYBRID LILACS

Highland Park Varieties

These include the choicest and highest developed types of lilacs. Great improvements have been made in variety, size of the flowers and color tones which include a wide range of wonderfully beautiful shades. We have selected some of the finest. Grow 6 to 9 ft.

Ludwig Spaeth—Darkest of the blues. A deep rich reddish-purple shade borne in long panicles, single flowers. Illustrated above.

2 to 3 ft., \$1.00 each

Marie La Graye—Tall growing vigorous plants bearing large clusters of single white. Illustrated above.

2 to 3 ft., \$1.00 each

Michael Buchner—A very desirable variety with very delightfully beautiful clusters of delicate pale lilac. Flowers very double. Plants dwarf and stocky. Illustrated above.

2 to 3 ft., \$1.00 each

HIGHLAND PARK COLLECTION SPECIAL VALUE

One each of the three Lilacs illustrated on this page.

Ludwig Spaeth
Marie La Graye
Michael Buchner } for \$2.50

Hugo Koster—Beautiful rich wine-red. Large flowers in huge clusters. Single.

2 to 3 ft., \$1.25 each

President Grevy—Large double flowers of bright blue. Tube and scapes rosy mauve.

2 to 3 ft., \$1.00 each

Vauban—Lovely double flowers of bright pink with lilac shading.

2 to 3 ft., \$1.00 each

Vestal—Large pure white. Panicles and flowers of perfect form. Single.

2 to 3 ft., \$1.00 each

Marc Micheli—Splendid double blue with lilac shading.

2 to 3 ft., \$1.00 each

COMMON VARIETIES

Purple Lilac—The well-known old-time favorite. Bluish-purple flowers. Often attain a height of 12 ft.

3 to 4 ft., 60c each; 10 for \$5.50

White Lilac—Fragrant and free flowering. Always popular, not quite as tall as the common purple.

3 ft., 75c each; 10 for \$6.50

Snowberry White

Snowberry White (*Symphoricarpos Racemosus*)—Small pink flowers followed by quantities of large waxy-white round berries in autumn that remain on the plants through the winter. Attractive foliage, grows well in shade. Grows 5 to 6 feet high.

3 to 4 ft., 50c each; 10 for \$4.50

Snowberry, Red (*Coralberry* or *Indian Currant*, *Symphoricarpos Vulgaris*)—Similar to the white snowberry but more compact and dwarf growing, 4 to 5 ft., and with attractive smaller berries clustering thickly along the stems. Foliage is small, close set and dark.

2 to 3 ft., 50c each; 10 for \$4.50

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Spirea Van Houttei, the most useful flowering shrub

Spireas

SPIREAS vary greatly in style, color and habits of growth according to variety. All of them bloom with riotous extravagance and a collection of them will insure bloom the entire season.

Spirea Van Houttei—Without doubt the finest spring flowering shrub. In May and June the plant is covered with a mass of white flowers on every branch drooping gracefully to the ground. Grows 5 to 7 feet high. Even when not in bloom the foliage is very ornamental. See illustration above and also picture on Page 13.

2 to 3 ft., 40c each; 10 for \$3.50
3 to 4 ft., 50c each; 10 for \$4.50

Spirea Anthony Waterer—A dwarf growing variety attaining height of about 3 ft. Broad flat heads of rosy-red flowers; blossoms freely all summer. See Page 13 for illustration.
15 to 18 in., 50c each; 10 for \$4.50

Spirea Aurea (Golden Spirea)—Young foliage of bright yellow changing to golden-bronze

in fall. Double white flowers in June. Attains height of 7 to 9 ft.

3 to 4 ft., 50c each; 10 for \$4.50

Spirea Billardi—Rose-colored flowers in spikes, erect branches. Good in moist places. Blooms July to September. Attains height of 4 to 5 ft. 2 to 3 ft., 50c each; 10 for \$4.50

Spirea Callosa Alba—Another dwarf variety with white flowers all summer.

15 to 18 in., 50c each; 10 for \$4.50

Spirea Prunifolia (Bridal Wreath)—A superb old-time favorite with graceful slender branches covered with clusters of small double button-like white flowers in May. Attractive foliage which turns in autumn to brilliant bronzy-red. Attains height of 5 to 7 ft.

2 to 3 ft., 50c each; 10 for \$4.50

Spirea Thunbergi—Fine feathery foliage of yellowish-green changing in autumn to bright red and orange. Pure white flowers borne in feathery masses in early spring. Grows 4 to 5 ft. 2 to 3 ft., 50c each; 10 for \$4.50

Spirea Sorbifolia (Ash-leaf Spirea)—A variety with unusually handsome foliage resembling Mountain Ash. Fine feathery, pure white spikes of bloom in July and August. Strikingly handsome and distinct. Grows 4 to 5 ft.

2 to 3 ft., 60c each; 10 for \$5.00

10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

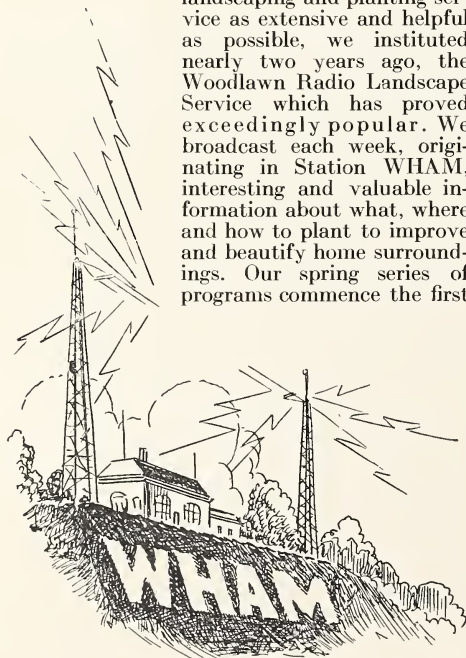

Woodlawn Landscape Service

ORNAMENTAL planting of shrubs, trees, evergreens, perennials, etc., around one's home is what makes a house a real home. "It's not a home until it's planted." No other investment you can possibly make will pay such rich dividends in beauty, satisfaction and a largely increased money value to your property. Upon examining the pages of this book, you will be delightfully surprised at how much you can accomplish with only a slight investment of money. It is most fascinating to select from the hundreds of desirable varieties described and illustrated here those best suited for your particular location and your special needs. The list of varieties of shrubs grouped according to height on this page will help you in making suitable selections.

If in doubt as to just what to use and where, our Landscape Department can aid you in making a suggestive planting plan. Just send in a rough pencil sketch giving the main dimensions, location and size of buildings, walks and driveways and direction. For this service we make a nominal charge of \$5.00, which amount will be refunded on an order for stock amounting to \$25.00 or more.

Woodlawn Radio Landscape Service

In order to make our landscaping and planting service as extensive and helpful as possible, we instituted nearly two years ago, the Woodlawn Radio Landscape Service which has proved exceedingly popular. We broadcast each week, originating in Station WHAM, interesting and valuable information about what, where and how to plant to improve and beautify home surroundings. Our spring series of programs commence the first

week in February and will continue as heretofore each week broadcasted over WHAM, WGY, and WMAK. Watch the papers for detailed announcements.

Shrubs Grouped According to Height To Aid You in Selecting Suitable Varieties

This list is not intended to be complete but will give you many helpful suggestions about suitable arrangement of varieties, especially for the inexperienced gardener. By noting the time of bloom, prevailing color of flowers, leaves or fruit, you can select an assortment that will make a harmonious display from early 'til late.

In the table below fl. stands for flowers, lvs. means leaves or foliage, varcol. means various colors, var. lvs. means variegated leaves.

| Tall Growing | Time of Bloom | Flowers, Leaves or Fruit | Page |
|-------------------------|---------------|--------------------------|------|
| (Set about 4 ft. apart) | | | |
| Altheas | Aug.-Sep. | Var. col. fl. | 4 |
| Beauty Bush | May-June | Pink fl. | 5 |
| Cornus, Sibirica | May | Red stems | 5 |
| *Deutzia, P. of R. | May-June | White fl. | 7 |
| *Deutzia, Crenata | May | Pink fl. | 7 |
| *Syringa, Grand | June | White fl. | 11 |
| *Syringa, Cor. | May | White fl. | 11 |

| Stephanandra | June | White fl. | 12 |
| *Syringa, Golden | June | Yellow lvs. | 11 |

All above are suitable for sunny exposures. Varieties marked * also suitable for shady exposure.

Japan Snowball

Snowball, Japan (*Viburnum Plicatum*)—Erect compact shrub growing 6 to 8 ft. covered with large balls of snow-white flowers in June. Illustration above shows how these lovely balls of bloom are placed in regular pairs on the branches. Very handsome dark green foliage of perfect pattern. 2 to 3 ft., \$1.00 each

Snowball, Common (*Viburnum Opulus Sterilis*)—A well-known favorite attaining height of 8 to 10 ft. Snowy-white flowers in May and June. 2 to 3 ft., 75c each; 10 for \$6.50

Highbush Cranberry

Highbush Cranberry (*Viburnum Opulus*)—A very desirable tall growing shrub 8 to 10 ft. Handsome brilliant green foliage with splendid autumn coloring. Pure white flowers followed by large bunches of crimson berries which remain on the bush throughout the winter, making it ornamental at all seasons. 2 to 3 ft., 50c each; 10 for \$4.50

New Philadelphus Virginalis

Showing row in our nursery and close view of the beautiful double flowers

Syringas

New Philadelphus Virginalis—The most beautiful and shapely of the mock oranges. The sweetly scented clusters of pure white double flowers are formed in June and continue throughout the summer. Grows 6 to 8 ft.

3 to 4 ft., 75c each; 10 for \$6.50

Syringa, Golden—Grows 3 to 4 ft. high. Bright golden-yellow foliage; white flowers.

18 to 24 in., 75c each; 10 for \$6.50

Syringa Coronarius (Sweet Mock Orange)—Well-known old favorite with pure white sweetly scented flowers. Grows 9 to 10 ft. high.

3 to 4 ft., 50c each; 10 for \$4.50

Syringa Grandiflorus (Large Flowered Mock Orange)—Large showy white flowers slightly fragrant. Grows 7 to 8 ft.

3 to 4 ft., 50c each; 10 for \$4.50

Viburnum Carlesi—A valuable new shrub. The buds are an attractive pink developing into pure white umbels of spice-scented bloom, of perfect form in May and June, persisting for an unusually long time. Grows about 4 ft. Shipped with a ball of earth around the roots tied up in burlap. 15 to 18 in., \$2.25 each

10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Hydrangea Arborescens

Hydrangea Arborescens (Hills of Snow)—Large snowy-white flowers in clusters resembling snowball from July to September. Should be cut back to the crown each spring to be kept round and dense at a normal height of 3 to 5 ft.

2 to 3 ft., 50c each; 10 for \$4.50

Hydrangea P.G.—One of the most popular of hardy shrubs. Immense creamy white heads of bloom changing to pink and bronze with age. Blooms from August to frost. Much improved by severe pruning each spring before the leaf buds open to get dense dwarf shrubs of compact form, 3 to 4 ft. high. Our stock is the true large flowered type. See illustration on opposite page.

2 to 3 ft., 50c each; 10 for \$4.50

Hydrangea P.G., Tree Form—Same as bush but grown in tree form on single stem.

2 to 3 ft., \$1.00 each 3 to 4 ft., \$1.50 each
4 to 5 ft., \$2.00 each

Japan Quince (*Cydonia Japonica*)—Very early in spring, this fine shrub is covered with showy deep scarlet flowers of good size followed by small red quince-shaped fruit. Growth bushy with protecting thorns. Grows 4 to 5 ft. Often used for hedges. 2 to 3 ft., 75c each; 10 for \$6.50

Stephenandra Flexuosa—Very desirable dwarf shrub growing 4 to 5 ft., of graceful compact habit. Handsome leathery deep-lobed foliage which colors to purplish-red. Panicked racemes of white flowers in June.

2 to 3 ft., 60c each; 10 for \$5.00

Forsythia Fortunei (Golden Bell)—This splendid old shrub attaining height of 8 to 10 ft., is one of the earliest to bloom in the spring. Bright showy yellow flowers appear before leaves. Especially valuable for tall backgrounds. See illustration on opposite page.

3 to 4 ft., 50c each; 10 for \$4.50

For 5 cents per plant extra we prepay postage to fourth parcel post zone

WEIGELAS (Diervilla)

Weigela Rosea—An elegant strong growing shrub, growing 7 to 8 ft. Showy trumpet shaped rosy-pink flowers in June. Illustration on opposite page.

3 to 4 ft., 50c each; 10 for \$4.50

Weigela Candida—Grows 4 to 6 ft. Pure white trumpet-shaped flowers in great profusion during June and to some extent all summer.

2 to 3 ft., 50c each; 10 for \$4.50

Weigela Variegated—Of dwarf habit 4 to 5 ft. high. Light pink flowers, foliage broadly margined with creamy-white. One of the best variegated leaved shrubs.

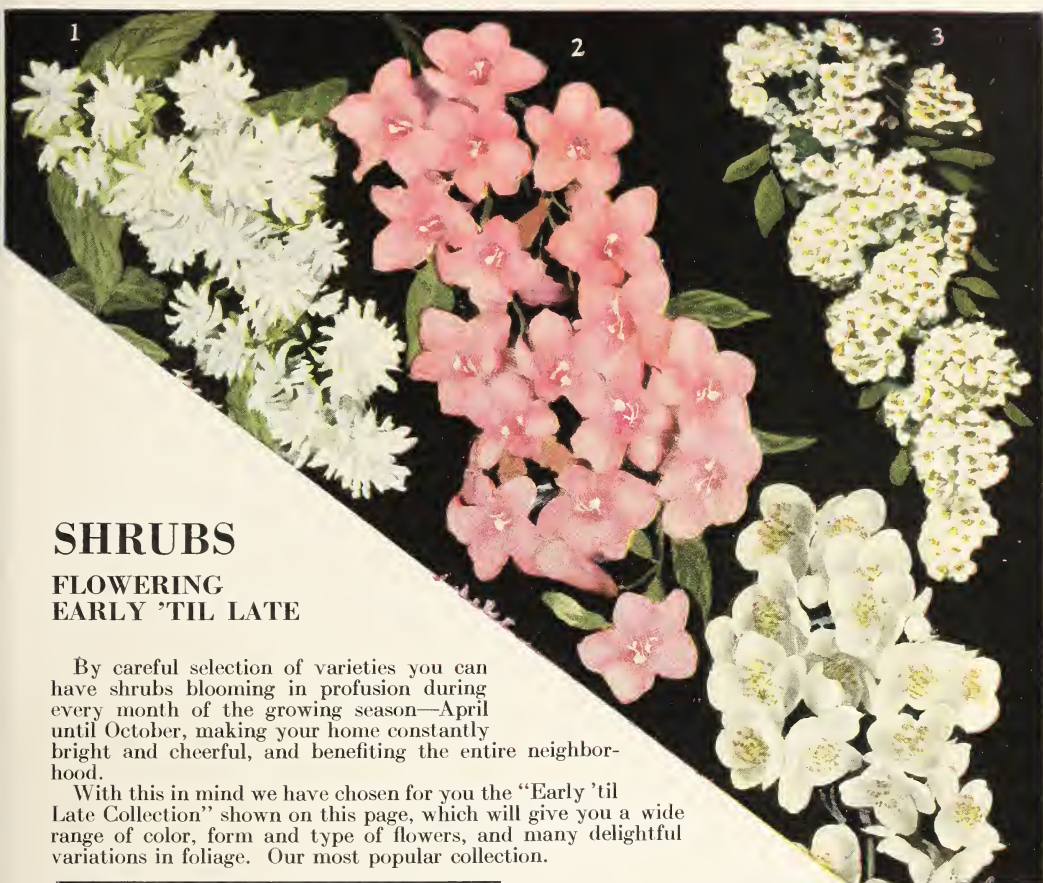

18 to 24 in., 60c each; 10 for \$5.00

Weigela Eva Rathke

Weigela Eva Rathke—One of the finest and most distinct of the Weigelas. Brilliant carmine-red flowers, blossoming nearly all summer. Dwarf habit, growing about 4 ft. high.

18 to 24 in., 60c each; 10 for \$5.00

SHRUBS

FLOWERING EARLY 'TIL LATE

By careful selection of varieties you can have shrubs blooming in profusion during every month of the growing season—April until October, making your home constantly bright and cheerful, and benefiting the entire neighborhood.

With this in mind we have chosen for you the "Early 'til Late Collection" shown on this page, which will give you a wide range of color, form and type of flowers, and many delightful variations in foliage. Our most popular collection.

EARLY 'TIL LATE COLLECTION.

Hedge Plants

HEDGES are indispensable in any planting or landscaping scheme. They are used not only for defense and for defining boundaries but are planted extensively for ornament in enclosing portions of your property and for many beautiful effects. These fences of living green beautify our homes and are rapidly supplanting old-fashioned picket or iron fences. The most widely planted hedges, especially for trimmed formal effects are privet and barberry which are shown on this and the following page. Other shrubs that make good hedges include Spirea Van Houttei shown on Page 9; Bush Honeysuckles, Page 7; Snowberries, Page 8; and Hydrangeas, Page 12.

Hedge of Barberry Thunbergi (Japanese Barberry)

Barberry Thunbergi—Dwarf growing, rich bright green foliage turning to brilliant red in Autumn. Attractive red berries remain on bush all winter. Perfectly hardy anywhere. Forms an impenetrable barrier with its thorny twigs. For a dense hedge plant one foot apart.

Hardy Vines

VINES, particularly the hardy ornamental ones shown here require practically no care or attention. They serve not only as a charming, beautiful decoration for porches, trellises, fences and arbors, but also provide much needed shade. Woodlawn quality vines are the best and strongest you can buy. Two-year-old, well-rooted, vigorous stock.

Boston Ivy, Ampelopsis Veitchi

Boston Ivy (*Ampelopsis Veitchi*)—One of the finest hardy climbers, very desirable for covering walls as it will cling to any surface, especially brick or cement. Fresh deep green, closely overlapping foliage turns a rich crimson in autumn. 75c each; 10 for \$6.00

Dutchman's Pipe—Birthwort

Dutchman's Pipe (*Birthwort*)—A very striking unique vine ideal where dense shade is wanted. Large, handsome, deep green leaves are closely and evenly laid. Has peculiar brownish flowers resembling miniature pipes. Perfectly hardy, easily grown. \$1.00 each

American Ivy (*Virginia Creeper*)—A splendid native vine of vigorous growth. Fine rich green in summer changing to crimson and bronze in autumn. Desirable for covering walls, verandas or trunks of trees.

50c each; 10 for \$4.50

I just want to thank you for the Amoor River Privet which you shipped to me. This stock was far beyond our expectations in size and quality.
Oil City, Pa., Nov. 6, 1929

A. J. Davis

The Barberry and other things came very promptly. I am delighted with them. They are such strong, fine bushes.
Pittsford, N. Y., May 2, 1929

Three Lovely Clematis

- 1—Mmc. Ed. Andre 85c
- 2—Paniculata 50c
- 4—Jackmani 85c

Descriptions below

Clematis, Mmc. Ed. Andre—Medium size flowers of distinct crimson red. Blooms profusely. Illustrated above, (1).

85c each

Clematis Paniculata—The most vigorous growing clematis with shining green foliage and a profusion of small, single, pure-white flowers borne in immense clusters or sheets in September so that the entire vine is one mass of bloom. Delightfully fragrant. Illustrated above.

50c each; 10 for \$4.50

Clematis Jackmani—Large, intense violet-purple flowers of velvety richness. A free grower and successive bloomer. The best known and most popular of the large flowered kind. Pictured above.

85c each

Clematis Henryi—The finest large flowered white clematis. The pure white flowers are about the same shape and size of the red Mmc. Ed. Andre pictured above, but usually have from six to eight petals. Blooms freely during summer and autumn.

85c each

The shrubs arrived in first class condition, were larger than I expected to get, and are growing fine.

Gloversville, N. Y.

Bittersweet Berries

Bittersweet—A hardy and very desirable native vine with yellow flowers, followed in autumn by clusters of brilliant red berries with orange capsules that make charming and lasting winter house decoration. A fast grower useful for binding and covering steep banks. Illustrated at right.

60c each; 10 for \$5.50

For 5 cents per plant extra we prepay postage to fourth parcel post zone

New Silver Lace Vine

New Silver Lace Vine (*Polygonum Auberti*)—One of the most desirable flowering climbing vines. The plant is of twining habit and strong vigorous growth, attaining a height of 25 ft. or more. Fresh, shining green small foliage, producing from summer to fall great foamy sprays of silvery white flowers in great profusion. Strong 2-year-old, field grown plants. 75c each

Hall's Japan Honeysuckle (*Lonicera Halleana*)—A strong, vigorous growing almost evergreen vine with pure white flowers intermingled with yellow. Very fragrant. Covered with flowers from July until frost. Valuable for covering and binding steep banks. Grows well in shady places. Illustrated at right above.

50c each; 10 for \$4.50

Wisteria Chinese Purple—Unsurpassed for beauty and picturesqueness. Splendid for pergolas, porches and trellises. Attractive foliage and long pendulous clusters of pale lilac colored flowers often 12 inches long, in May and June. It is very hardy and lives to a great age. Illustrated at right.

Evergreens

THERE is nothing that can quite take the place of Evergreens. In the summer their stately dignified grandeur adds serenity to the riot of colors in other vegetation, and in snowy winter their cheerful freshness gives us a comforting promise, in the bleak landscape, that spring will come again.

All of our evergreens are choice varieties and are fine, strong specimen plants that have been transplanted several times to develop a mass of fibrous roots. They are all shipped with a ball of earth around the roots tied up in burlap as shown in the picture below.

Globe Arbor Vitae

Globe Arbor Vitae—Forms a natural Evergreen Globe or ball without trimming.

18 to 24 in., \$3.00; 2 to 3 ft., \$5.00

American Arbor Vitae (Thuja)—Erect pyramidal habit; dark green foliage, very hardy.

3 ft., \$3.00 each; 4 to 5 ft., \$5.00

Siberian Arbor Vitae—A very hardy variety naturally forming a rather blunt cone-shape.

18 to 24 in., \$2.50 each

Irish Juniper—One of the most popular of the erect, slender conical types. Dense, fine cut, grayish-green foliage.

3 to 4 ft., \$5.00 each

Savin Juniper

Savin Juniper—Low spreading tree with handsome, dark green foliage. Very good for foundation planting.

18 to 24 in., \$3.00 each

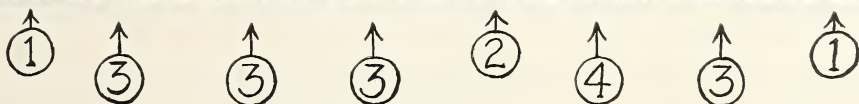

Juniper Pfitzeriana

Juniper Pfitzeriana—One of the most desirable of the spreading evergreens. Perfectly hardy, retaining its fresh, silvery green color throughout the winter. Makes a graceful feathery appearance.

18 to 24 in., \$3.50; 2 to 3 ft., \$5.00

Excelsa Stricta Juniper—A hardy, satisfactory, conical form with fine, dense, silvery green foliage.

18 to 24 in., \$3.00 each

Woodlawn Foundation Evergreen Collection

| Key | Quantity | Variety |
|------------------------------|----------|-----------------------------|
| No. 1 | 2 | Pyramidal Arbor Vitae, 3' |

| 8 Choice Evergreens, \$25.00 | | |

Swedish Juniper—Narrow, columnar form, grayish-green prickly needles. 3 ft., \$3.00

Silver Red Cedar (*Juniper Virginiana Glauca*)—A well-known American tree with fine, dense foliage of compact, conical form and silvery blue color. 2 to 3 ft., \$4.00 each

Colorado Blue Spruce—Wonderful ornamental tree of silvery blue luster; of perfect form and symmetry.

15 to 18 in., \$5.00

Colorado Green Spruce—Similar in form to the Colorado Blue, but with green foliage. 15 to 18 in., \$2.00; 18 to 24 in., \$3.00

White Spruce—A native American tree of compact, upright growth and symmetrical form attaining a height of 25 ft. or more. 2½ to 3 ft., \$3.00

Norway Spruce—One of the best known and most rapid growing of the evergreens. Often used as windbreaks.

18 to 24 in., \$2.00; 2 to 3 ft., \$2.50

Hemlock—A beautiful hardy tree of conical shape tapering evenly from a broad base with long, gracefully dropping branches of rich dark green and short feathery needles.

3 ft., \$3.50; 4 ft., \$6.00 each

Dwarf Mugho Pine

Mugho Dwarf Mountain Pine—Low dense growth usually broader than its height. Most attractive and valuable for foundation planting in front of taller specimens.

15 to 18 in., \$4.00 18 to 24 in., \$5.00

Japanese Yew (*Taxus Cuspidata*)—A splendid evergreen of upright branching form and shiny, waxy, dark green foliage.

18 to 24 in., \$4.00 each

Dwarf Japanese Yew (*Taxus Cuspidata Nana*)—Dwarf type of the above of dense spreading habit as wide as it is high.

12 to 15 in., \$4.00 each

Pachysandra (*Japanese Spurge*)—The best evergreen ground cover, especially valuable because it grows in shade. 6 to 10 inches.

10 for \$1.50; 25 for \$3.00; 100 for \$10.00

Pyramidal Arborvitae

Pyramidal Arborvitae — One of the most beautiful and useful varieties; very erect and regular in form. Foliage is deep green, well retained in winter. Perfectly hardy, easily transplanted. One of the most satisfactory kinds for foundation planting at corners and on either side of entrances as accent points.

3 ft., \$4.00; 4 ft., \$5.00; 5 ft., \$6.00

**SPECIAL
EVERGREEN COLLECTION**
The 5 Select Specimens Pictured Above **\$10.00**

Austrian Pine

Austrian Pine—With their rugged aspect and dark green needle foliage, stiff and resistant, Austrian Pines make a very artistic aspect in any landscape scheme. Individual trees are interesting in shape and habit and attain considerable size. 3 to 4 ft., \$4.00 each

Hardy Perennials

PERENNIALS are like old family friends. They never forsake us, but come back year after year to brighten our gardens with their beauty and friendly loveliness. The tops freeze down each winter but they come up new and fresh in the spring and increase in size and splendor as the years pass.

Plant early in the spring before May 1st if possible while the roots are still dormant. Keeping the flower stalks cut off after blooming prolongs the blooming period of nearly all kinds. A mulching of strawy manure, leaves or other litter during the winter is desirable.

Anemone

Anemone (Wind Flowers)—A very valuable and beautiful hardy plant blossoming from August until November. They grow rapidly 2 to 3 ft. high. White and pink. 35c each; 3 for \$1.00

Aquilegia (Columbine)—One of the showiest and most desirable of hardy garden plants. Blooms in early spring. We offer the famous Mrs. Scott Elliot's strain of long-spurred hybrids in many shades and combinations of red, blue, purple and yellow. Mixed colors only. 25c each; 5 for \$1.00

Campanula (Canterbury Bells)—A lovely free blooming, free flowering hardy plant blooming in July. Grows 2 to 3 ft. Good for cutting for bouquets. Blue and white. Illustrated at right, above. 25c each; 5 for \$1.00

Chinese Lantern Plant—Dense bushes growing about 2 ft. high, producing bright orange-scarlet, lantern-like fruit in autumn which may be cut and dried for winter decorations. See illustration at right. 25c each; 5 for \$1.00

Bleeding Heart (Dicentra)—One of the most delightful of all early spring flowering perennials bearing numerous rosy-red heart-shaped flowers in long drooping racemes. Grows to about 2 ft. 60c each; 3 for \$1.50

Campanula

Chinese Lantern Plant

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Hardy Chrysanthemums

Hardy Chrysanthemums

All Large-flowering Kinds

Argenteuillais—Large, attractive, deep chestnut with bronzy-cast.

Golden Queen—Large, pure yellow. Shaggy type.

Homestead—Bright, rich, rose-pink.

Autumn Glow—Typical autumn tints of brilliant crimson and orange.

Marian—Large flowered, pure white.

Indian Red—Strawberry red over copper.

Victory—Snow white, very floriferous.

Any of the above Chrysanthemums
25c each; 5 for \$1.00

Gaillardia (Blanket Flower)—One of the most gorgeous of all flowering plants, growing 15 to 18 inches. A hard center of deep maroon is thickly bordered with petals of orange and yellow ringed by circles of crimson, red and maroon. Illustrated at right.

25c each; 5 for \$1.00

The Butterfly Bush and five Phlox I ordered arrived in splendid condition. Am very well pleased with them.
Rensselaer, N. Y. Mrs. Charles F. Raible
Apr. 20, 1929

Shasta Daisies

Shasta Daisy—A very hardy popular perennial which blooms more abundantly each season and continues in blossom for a long period. Large pure white flowers borne singly on long, stiff wiry stems. 12 to 15 inches high.

25c each; 5 for \$1.00

Gaillardia—Blanket Flower

For 5 cents per plant extra we prepay postage to fourth parcel post zone

New Variegated Yucca Filamentosa

Yucca Filamentosa Variegated—Especially valuable for its novel striking foliage of deep green with bright yellow margins. Remains green all winter. Drooping, creamy white flowers are borne in long spikes rising well above the foliage. 50c each; 5 for \$2.00

Lily of the Valley

Lily of the Valley—Always desirable, especially for secluded spots. Will thrive in any soil, brightening the garden with its beautiful modest, fragrant white bells.

10c each; 10 for 75c; 100 for \$4.00

Blue Bird Flowers (Veronica)—Deep indigo blue flowers borne abundantly in long, thick, compact spikes July to September. Illustrated at left.

25c each; 5 for \$1.00

Helenium Autumnale Rubrum—Tall growing plant about 5 feet high. Deep bronzed masses of large, daisy-like flowers in late summer and autumn.

30c each; 5 for \$1.25

Heliopsis—One of the best perennials for cut flowers, blooming almost constantly from the last of June to frost. Beautiful, deep golden-yellow, daisy-like flowers about three feet high.

25c each; 5 for \$1.00

Lupines—Long spikes of pea-shaped flowers about a foot long on stems three feet high. Various shades of blue.

35c each; 3 for \$1.00

Mallow, Red Flowering—Large vivid red flowers from July to September. Tall growing.

25c each; 5 for \$1.00

Mallow, Pink—Same as red variety but with large showy flowers of delicate pink with deeper shade in center.

25c each; 5 for \$1.00

Pyrethrum (Painted Daisy)—Very hardy, easily grown and beautiful daisy-like flowers of various shades of red, rose, pink and white on long stems. Blooms in June and continues through the season.

25c each; 5 for \$1.00

Blue Bird Flower

10% discount on all orders with remittance before March 1, 1930; 5% from March 1 to April 1, 1930

Phlox, Rheinlander

Hardy Phlox

Orchid Bride—A new delicate orchid shade of very large size. Individual flowers are frequently large enough to completely cover a silver dollar.

B. Compte—New deep Burgundy red, almost maroon.

Orchid Bride and B. Compte, 35c each; 5 for \$1.50.

Any of the following varieties of Phlox,
25c each; 5 for \$1.00

Jules Sandeau—Large, free flowering variety of a delightful shade of sparkling pink.

Von Hindenburg—Beautiful new variety of brilliant fiery red.

Europa—White with crimson-carmine eye.

Fraulein G. Von Lassburg—Pure white.

General Von Heutz—Brilliant salmon-red.

King of the Purple—Best rich purple.

Rheinlander—Beautiful salmon-pink in large trusses. Illustrated above.

G. A. Strohlein—Scarlet-orange with bright crimson eye.

Larkspur (Delphinium)—Long showy spikes of various shades of blue. We offer the new Delphinium Hybrids which contain many delightful shades of blue. 25c each; 5 for \$1.00

Foxglove (Digitalis)—Very popular and desirable as a background for lower growing plants. Stately racemes of flowers are often two feet long on stems five to six feet. Mixed colors only. Illustrated at left. 25c each; 5 for \$1.00

Foxglove

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Paeony, Felix Crousse

Paeonies

THE paeony is a noble flower, almost rivaling the Rose in brilliancy of color and perfection of bloom. Hardy as an oak in the most severe climate. We have selected and offer here only choice varieties.

Plant two to three feet apart in deep, rich, well prepared soil covering the tops only about two or three inches. Paeonies are rather slow in becoming established but increase in size and beauty each year.

Albert Crousse—Beautiful shell-pink of bomb type with row of broad petals around outer edge and large ball of finer cut petals in the center. 75c each

Felix Crousse—Brilliant red. Fragrant. One of the best. Illustrated above. 75c each

Festiva Maxima—The most popular and satisfactory snow-white, flecked crimson in center. Rose type. 60c each

Duchess de Nemours—Pure white crown, sulphur-white collar. Fragrant; early. 60c each

Madame Ducl—Beautiful warm pink of bomb type with high built center. 75c each

Marie Lemoinei—Best late white; large, full rose type. 75c each

Sarah Bernhardt—One of the finest newer pinks; semi-rose type. \$1.00 each

Victor Hugo—Deep, glowing carmine-rose; bomb type. \$1.00 each

Unnamed Paeonies—Various colors and types; strong roots. 50c each; 10 for \$4.50

German Iris

The lovely, well-known fleur de lis of France. We offer some much improved varieties of exquisite coloring. Bloom in May and June.

Celeste—Fine, pale, azure-blue.

Her Majesty—Exquisitely tinted rosy-pink.

Lorley—Standards, light yellow; falls deep blue, cream tinted.

Nibelungen—Standards, clear yellow, falls violet-purple, fawn bordered.

Rhein Nixe—Standards, pure white; falls deep violet, white edge.

Any of the above choice Iris 25c each;
5 for \$1.00

Japanese Iris

Bloom after German Iris are through, with exquisitely colored flowers of broad flat form often ten inches across.

Golden Bound—Large, beautiful white.

Blue Danube—Lovely, deep blue.

Mahogany—Double, large, mahogany-red, velvet-toned.

Any of the above Japanese Iris, 35c each;
3 for \$1.00

Coreopsis

Coreopsis—Very showy and always satisfactory perennial growing 2 to 3 ft. high. Rich, golden-yellow flowers on slender wiry stems. 25c each; 5 for \$1.00

10% discount on all orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Hardy Perennial Plants and Bulbs (Continued)

Liatris (Blazing Star or Gay Feather)—Combines beauty and odd appearance. Blooms in midsummer and fall, throwing up long, narrow spikes of rich lavender pink flowers 3 to 4 ft. high. Good for cut flowers.

25c each; 5 for \$1.00

Hardy Lilies

NO garden is quite complete without a few lilies. They are very easy to grow and give universal satisfaction. They will thrive in almost any ordinary garden soil but particularly enjoy a light sandy loam and should be planted in a well drained location. Avoid using fertilizer or manure so that it comes in contact with the roots or bulbs. Fertilizer should be well decayed and applied on the surface of the ground. All the Lilies listed below except White Day Lily, which is a fleshy-rooted perennial, should be planted 8 to 12 inches deep as they form roots from the stem above the bulb.

Auratum—Gold Banded Lily

Auratum (Gold Banded Lily of Japan)—Large, graceful, fragrant flowers of delicate ivory-white with a gold band through the center of each petal. Of fascinating loveliness. Blooms July-August.

50c each

Tiger Lily—A popular old-time favorite. Flowers are orange-red in color, spotted dark purple. Petals gracefully reflexed. Blooms August through September.

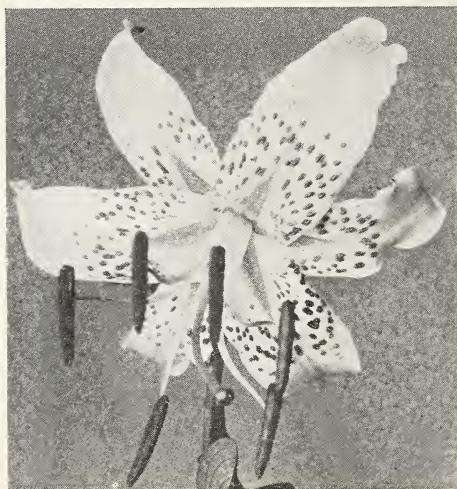

35c each

Regal Lily

Regal—A recent introduction from China. A wonderfully beautiful variety of large size, trumpet-shaped form, creamy white profused with pink; yellow in center. Delightfully perfumed. Blooms in July.

60c each

Speciosum Rubrum

Speciosum Rubrum—Blooms in August with large, rosy-white flowers heavily spotted with rich crimson. Reflexed petals.

50c each

White Day Lily (Funkia)—Very popular, hardy garden variety with broad shiny leaves and pure white flowers.

25c each; 5 for \$1.00

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Gladioli—"Glad Flowers"

GLADIOLI affectionately known as "Glad Flowers," are increasing enormously in popularity because of their ease of culture, long period of bloom and the glorious display of color which they produce with a minimum of effort. Plant bulbs in the spring as soon as danger of freezing is past.

American Beauty

American Beauty—Same color as the famous American Beauty Rose. Every spike a bouquet. 25c each; 10 for \$2.00

Anna Eberius—A wonderful flower of deep velvety purplish-rose. 15c each; 10 for \$1.25

Carmen Sylva—One of the best whites, tall, slender and graceful. 2 for 25c 10 for \$1.00

Crimson Glow—Large open flowers of brilliant crimson. 15c each; 10 for \$1.25

Golden Measure—Largest and best yellow yet produced. Rich golden yellow without any markings. 25c each; 10 for \$2.00

Mrs. Doctor Norton—Evelyn Kirkland

Mrs. Dr. Norton—Famous pink and cream. A prize winner. 15c each; 10 for \$1.25

Evelyn Kirtland—Beautiful rich shade of rosy-pink, darker at edges with brilliant scarlet blotch on lower petals. 20c each; 10 for \$1.25

Mary Pickford—Delicate creamy-white, soft yellow throat. 15c each; 10 for \$1.25

Mrs. Frederick Peters—Beautiful rose-lilac, red throat. 25c each; 10 for \$2.00

Mrs. Leon Douglass—Delightful shade of rose, giant in size. Ruffled edges. 25c each; 10 for \$2.00

Purple Glory—Deep velvety maroon-red of giant size. 25c each; 10 for \$2.00

Rose Ash—Salmon overlaid with ashes of roses. Very attractive and artistic. 20c each; 10 for \$1.25

Herada—Glistening mauve, shaded pure purple. 2 for 25c; 10 for \$1.00

Three Extra Choice Gladioli—Liebesfeuer, Orange Queen, Richard Diener

Gladioli (Continued)

Liebesfeuer—One of the finest and richest colored scarlet Gladioli in existence. Illustrated above.

25c each; 10 for \$2.00

Orange Queen—A new large flowered Primulinus Glad; one of the most popular ever grown. A lovely, pure, orange-copper. Illustrated above.

25c each; 10 for \$2.00

Richard Diener—A majestic flower of pure salmon. Illustrated above.

25c each; 10 for \$2.00

GLAD FLOWER SPECIAL

One each of 12 select varieties, our choice **75c**

A Few of the Best

Primulinus Gladioli

The Primulinus Hybrids are distinguished for their slender, graceful habit of growth, making them exceedingly desirable for bouquets.

Orange Queen—Illustrated above and described on this page.

Everblooming Hybrid Tea Roses

THE EXPERT'S DOZEN

Illustrated on opposite page.

Selected by Specialists of the American
Rose Society

All twelve for \$10.00

By mail postpaid, \$10.50

THIS is one of the most up-to-date and finest lists of favorite roses ever compiled. It contains several of the most satisfactory of the new varieties. Have been selected by critical rose specialists for their vigor of growth, freedom of bloom, distinctive beauty, and other outstanding merits from the hundreds of varieties which are now available. The illustrations on the opposite page are about one-half actual size but serve to give you some idea of their unusual beauty.

Etoile de Holland—One of the most perfect red roses. A deep velvety crimson without shading. Deliciously fragrant. \$1.25 each

Rev. F. Page Roberts—Long shapely buds of Indian yellow shaded with deep carmine. A flower of almost perfect form. \$1.25 each

Betty Uprichard—A remarkably vigorous grower with carmine colored buds opening to lovely carmine flowers suffused with orange on the inside and coppery carmine on the reverse. Color holds well without fading. \$1.00 each

Souv. de Georges Pernet—Long pointed buds of rich oriental red tipped with deep carmine opening to shimmering rose with buttercup-yellow at base of petals. \$1.00 each

Lady Margaret Stewart—Winner of the 1928 Gold Medal at Bagatelle, France, the world's most coveted rose prize. The pointed bud is deep orange shaded scarlet and opens into large blooms of deep sunflower-yellow, the reverse of petals heavily shaded orange-brown. \$1.50 each

Mme. Edouard Herriot (The Daily Mail Rose)—The long pointed buds are a deep glowing coral red which changes as the flower opens to a lovely orange pink. A continuous bloomer. 85c each

Mme. Butterfly—A harmony of pink, apricot and gold. Resembles Ophelia of which it is a sport but has more intensive coloring. "A glorified Ophelia." 85c each

Mrs. Henry Morse—One of the most perfect two-tone pinks. Artistically formed buds opening to a long lasting bloom of great size. \$1.00 each

Mrs. Charles Bell—A wonderfully beautiful shade of salmon pink. A sport of the famous Radiance which it resembles in many respects. \$1.00 each

Radiance—Without doubt the most popular and satisfactory pink rose, thriving and blooming vigorously almost anywhere. Large bloom of two-tone pink. Lighter inside with carmine shadings outside. 85c each

Willowmere—A lovely rose of large size and splendid form showing clear pink and glowing with light orange. Preferred in place of Los Angeles because of its vigor and blooming qualities. \$1.00 each

Mme. Jules Bouche—Buds are long pointed and flowers very double white with a strong tinge of pink in the center petal. \$1.00 each

NEW TALISMAN ROSE

Illustrated on front cover

No other rose has ever been received with such instant enthusiastic acclaim as Talisman. The most vividly colored rose which has ever been introduced and exceptionally easy to grow. A striking mixture of orange, red and yellow. The plant is vigorous with handsome foliage. Strong, vigorous, two-year-old, field-grown plants.

\$2.00 each

Hugonis

HUGONIS

The Golden Rose of China

A wonderfully beautiful, valuable and distinct shrub rose growing about 6 feet in height with graceful arching branches which are completely covered with golden-yellow blooms in early May followed by ornamental red fruit. Because of its graceful habit of growth and dainty dense foliage, it is most distinctive in the shrubbery border or as a hedge.

\$1.00 each; 5 for \$4.50

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Everblooming Hybrid Tea Roses (*Continued*)

Briarcliff

Briarcliff—A bright, clear, pleasing shade of rose-pink similar to the old favorite Columbia but far superior to it. Flowers of lovely form with a high pointed center. Vigorous hardy plants. **\$1.00 each**

Eugene Boulet—Splendid deep crimson, full and globular, very free bloomer. Vigorous branching plants with bronzy green foliage. One of the best reds. **85c each**

General Janssen—A large flower of glowing deep rosy-carmine with long pointed buds. Vigorous and upright in habit, continuous bloomer. **85c each**

Hoosier Beauty—Large, long pointed buds opening to glowing crimson with darker shading. Blooms very full and large. Sweetly fragrant. **85c each**

Juliet—A very distinctive variety of rich rosy-red inside with old gold on the reverse side of the petals. An abundant summer bloomer. **85c each**

Lady Ashtown—Deep carmine-pink shading to yellow at base of petals. Flowers large with beautiful deep curved petals. **\$1.00 each**

Lady Pirrie—A very satisfactory rose of large, well formed flowers, coppery-salmon outside, flushed lighter inside. Buds large, long pointed. Strong grower. **85c each**

My plants arrived on the 11th in very good condition.
No. Attleboro, Mass.
May 21, 1929

Mrs. Ruth Killion

Lady Ursula

Lady Ursula—A very dependable rose of vigorous upright habit. Delicate shell-pink blooms on long stems. Does particularly well in dry locations. **85c each**

La Tosca

La Tosca—A splendid garden variety of silver pink, deeper in center. Very vigorous, nearly thornless, extremely free flowering and resistant to disease. **85c each**

Mary, Countess of Ilchester—Attractive lively shade of rosy-carmine. Very full ball-shaped flowers. **85c each**

Shrubs arrived yesterday in fine condition and very nice.
Sherman, N. Y.
May 15, 1929

Carrie L. Brookmire

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Miss Cynthia Forde

Miss Cynthia Forde—A very dependable garden hybrid tea rose. Produces quantities of perfectly formed pure silvery pink blooms with the edges of petals showing a lighter shade. Well formed, deliciously fragrant flowers. Plants of vigorous habit and always dependable.

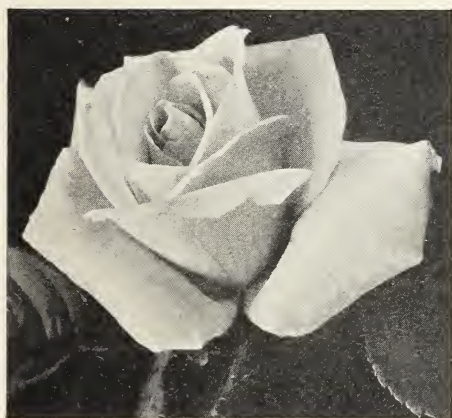

85c each

Red Radiance

Red Radiance—A companion to the famous Radiance shown on page 33 with the same form, habit of growth, vigor and disease resistant foliage. The color is a brilliant cerise red. One of the best and most dependable of roses.

\$1.00 each

Ophelia

Ophelia—An ever popular favorite of delicate pearl pink and gold developing to creamy-white. A flower of lovely form and sweet fragrance. Blooms freely until fall. A variety by which the newer kinds are judged.

85c each

Souvenir de George Beckwith—An immense rose of shrimp pink tinted with chrome yellow, retaining its salmon-pink color to the last. Flowers are borne on strong erect stems.

\$1.00 each

White Killarney

White Killarney—A duplicate of the famous and charming pink Killarney with flowers of snowy white. Especially beautiful in the bud.

85c each

10% discount on all orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Everblooming Hybrid Tea Roses (*Continued*)

Betty

Betty—A dependable variety of lovely coppery-rose overspread with golden yellow. Deliciously fragrant. Long pointed buds. A continuous bloomer, especially good in autumn. 85c each

Mme. Leon Paine

Mme. Leon Paine—Buds are carmine suffused with orange opening to a double flower of silvery pink shaded with carmine and orange. Of good habit and foliage. 85c each

Dame Edith Helen—One of the best of the newer pink roses. The large buds on erect stems open slowly holding its color which is similar to that of Paul Neyron, illustrated on the opposite page, until the end of the bloom. A most unusual exhibition rose. \$1.25 each

Mme. Caroline Testout—A general favorite. Large globular flowers of bright salmon rose-pink. Delightfully fragrant. This is the rose which borders the streets of Portland, Ore., making it famous as "The Rose City." 85c ea.

Mme. Abel Chatenay—A lovely much admired carmine pink shaded salmon. Deeper at base of petals. Buds of splendid form. 85c ea.

Mrs. Arthur Robert Waddell

Mrs. Arthur Robert Waddell—Long pointed, half opened buds are peach-apricot in color, opening to graceful loose-petaled orange-salmon blooms, unusually attractive. Glossy bronzy foliage. Vigorous bloomer. 85c each

Mme. Hector Leuillot—A variety of outstanding merit. Salmon-pink in center shading to gold at base of petals. Rose suffuses the entire flower as it opens. Shapely full blooms. Vigorous grower with bronzy foliage. 85c each

Margaret Dickson Hamill—Buff orange of globular shape. Stems long, strong, vigorous branching habit. Foliage dark green and leathery. 85c each

For 5 cents per plant extra we prepay postage to fourth parcel post zone

Miss Lolita Armour—A beautiful American rose which won the 1921 Bagatelle Gold Medal, the highest rose honor. Very large blooms of chrome yellow at base shaded to burnt orange and copper. Reflex of petals yellow at base shading to bright salmon. \$1.00 ea.

Mrs. Herbert Stevens—Medium size flower of snowy white shading to fawn and peach towards center. Has few thorns. Blooms profusely. 85c each

Souvenir de Claudius Pernet—Without doubt one of the finest and most satisfactory yellow roses of recent introduction. Pure sunflower yellow, deeper in center. 85c each

Snow Queen (Frau Karl Druschki)

Snow Queen (Frau Karl Druschki)—Often called White American Beauty. Acclaimed everywhere as the finest and most satisfactory white rose. Perfect in form, strong and vigorous in habit and extremely hardy. Blossoms profusely throughout the season. 75c each

Gruss an Teplitz

Gruss an Teplitz—One of the choicest and most satisfactory of all red roses for the garden. The color is scarlet shading to velvety crimson. Very fragrant and one of the most profuse bloomers of all roses. 75c each

HYBRID PERPETUAL ROSES

THESE are commonly called the June roses as they blossom most profusely in June, although many of them will blossom periodically through the summer and autumn. They are among the hardiest and most vigorous of the double bush roses. Always satisfactory in any part of the country. This class has been growing rapidly in popularity of late because they are not as exacting in care required to grow them successfully. The largest size and fullest double flowers will be found among the Hybrid Perpetuals.

Paul Neyron

Paul Neyron—A magnificent rose, by far the largest in cultivation. Very double, beautiful deep rose-pink and delightfully fragrant. Blossoms abundantly throughout the entire season. 60c each

10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Hybrid Perpetual Roses (*Continued*)

Black Prince

Black Prince—A very dark crimson rose formed on a vigorous growing plant. 60c each

Captain Hayward—Strikingly handsome, brilliant carmine-rose. Highly perfumed, full and double. Outer petals reflexed. 60c each

General Jacqueminot

General Jacqueminot—The old favorite "Jack Rose." Brilliant crimson. One of the most handsome and showy roses, especially beautiful in the bud. One of the most popular red roses. 60c each

Clio—Fine, large, globular flowers borne in clusters. Flesh color shaded in center with rosy-pink. Of vigorous growth and handsome foliage. 60c each

J. B. Clark—Intense, deep scarlet blooms of immense size. Very vigorous with strong upright canes. Fragrant. 60c each

Prince Camille de Rohan—Deep velvety crimson. Nearest approach to a black rose. Very large, moderately full. Vigorous grower. 60c each

Ulrich Brunner—One of the best Hybrid Perpetual roses of beautiful form and finish. Very large, fragrant, strikingly handsome brilliant cherry-crimson. Free bloomer; very vigorous plant. 60c each

Mrs. John Laing

Mrs. John Laing—Very large, long pointed buds opening to immense full flowers of beautiful soft pink with a satiny sheen. A profuse bloomer. One of the best of the light pink roses in the Hybrid Perpetual class. 60c each

Rugosa Roses

Rugosa Rose Hybrids cannot be excelled for massing or hedge planting and are very effective in the garden. The plants are highly ornamental and are the hardiest of all roses. Foliage is dark green, compact, leathery and disease resistant.

F. J. Grootendorst

F. J. Grootendorst—One of the best of the new Rugosa hybrids. An everblooming variety which is becoming more and more popular. The small, very double red flowers grow in clusters. The edge of each petal is serrated and somewhat resembles a carnation. They begin blooming in early summer and continue until frost. 75c each; 10 for \$7.00

Sir Thomas Lipton—Double snow-white flowers grow in clusters of medium size. Vigorous growing plants. 50c each; 10 for \$4.80

Bush Baby Ramblers

The Baby Ramblers or dwarf Polyanthas are low growing compact bushes, not climbing. They are very desirable for summer bedding and hedges. Flowers are large, well formed, crimson in color borne in large clusters of twenty to forty flowers at one time. Blooms profusely from June until heavy frost.

60c each; 5 for \$2.50

Climbing Roses

Strong, Selected Two-year-old, Field Grown Plants

Climbing roses make lovely living screens and coverings for porches, trellises, pergolas, walls and fences. They grow very easily, bloom profusely through long seasons and have very handsome attractive foliage. They are perfectly hardy anywhere. If kept cut back, many varieties, especially those like Paul's Scarlet Climber on Page 40 can be kept in bush form and make splendid impenetrable hedges.

Aviateur Bleriot—One of the best of the newer yellow climbing roses. The exquisite golden-yellow buds develop into full, double, primrose blooms with a golden center. Flowers are borne in graceful large clusters and have a delightful magnolia-like fragrance. A vigorous grower. 75c each; 10 for \$7.00

Crimson Rambler—An old favorite. Vigorous rapid grower with large clusters of crimson flowers. 50c each; 10 for \$4.80

Thousand Beauties

Thousand Beauties—Superb double flowers in large clusters varying in color from deep cherry-pink to white and rose, all shades being found in a single cluster. Magnificent light green, glossy foliage. Disease resistant. The smooth canes are nearly thornless. Highly desirable for covering walls, fences, porches, and pergolas. 50c each; 10 for \$4.80

10% discount on order with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Climbing Roses

(Continued)

Climbing American Beauty—Fragrant, rich, carmine flowers three to four inches in diameter are produced in great abundance on separate stems, of the same color and type as the old favorite American Beauty bush rose, but about twenty times as many blooms. Will succeed in almost any location.

75c each; 10 for \$7.00

Dr. Van Fleet—One of the finest of the newer type of climbing roses. Perfectly formed, long pointed, deep pink buds on long stems with several in a cluster that develop into a lighter shade of pink expanding to about four inches. A vigorous grower with abundant deep green, glossy, disease resistant foliage.

75c each; 10 for \$7.00

Dorothy Perkins—One of the most vigorous growing and useful of all climbing roses. Clear cherry-pink fragrant flowers formed in great profusion and lasting for a long time. They are double and the petals are crinkled, giving them a delightfully fluffy appearance. Will often grow 20 feet in a season. Always satisfactory.

50c each; 10 for \$4.80

Excelsa (Red Dorothy Perkins)—Double scarlet flowers in great clusters, similar in habit and form to Dorothy Perkins. Extremely vigorous, hardy and disease resistant.

50c each; 10 for \$4.80

Silver Moon—Large, pure white, semi-double flowers often 4 inches in diameter. Borne in great profusion. One of the most satisfactory climbing roses.

75c each; 10 for \$7.00

C. A. Moore

Paul's Scarlet Climbing Rose

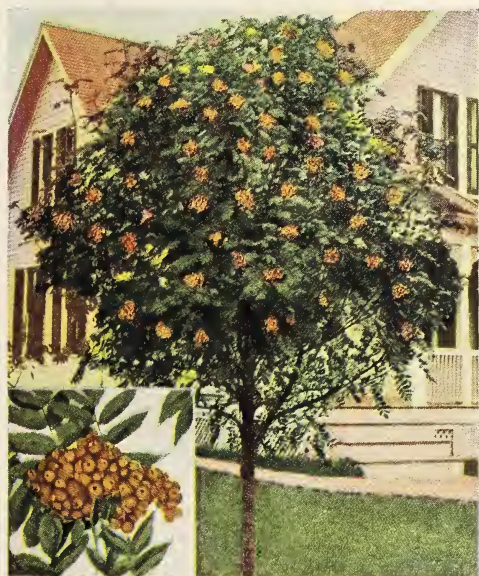

Paul's Scarlet Climber—This new climber is without doubt the most desirable of all red climbing roses. Color is vivid scarlet of lasting brilliancy which does not fade but remains bright until the petals fall. Grows to splendid pillar form of medium height without spreading.

75c each; 10 for \$7.00

For 5 cents per plant extra we prepay postage to fourth parcel post zone.

Ornamental Trees

TREES are essential in any planting scheme. First of all, of course, their use along the highway for street planting is self evident. They are also important in other parts of your property to furnish shade, protection, and to act as a suitable setting for your house and other buildings and to make the lower growing shrubs and plants more effective. Ornamental trees are desirable for shutting off unsightly views and should be placed according to a well conceived plan as is the case with shrubbery, vines and other ornamental planting. The original outlay of money is very slight compared with the ever increasing pleasure and enhanced property value thus secured.

Mountain Ash

Mountain Ash—A very handsome erect growing tree attaining a height of 25 to 30 ft., with graceful spreading branches and fernlike foliage. White flowers in early spring followed by clusters of beautiful orange-red berries remaining throughout the winter.

6 to 8 ft., \$2.00; 8 to 10 ft., \$2.50

Catalpa Speciosa—Handsome, oriental appearing tree; heart-shaped downy leaves, fragrant flowers in June. Grows 30 to 35 ft.

8 to 10 ft., \$1.50 each

Paul's Double Flowering Thorn

Paul's Double Flowering Thorn—An excellent lawn specimen with graceful spreading branches, excellent foliage and double bright carmine flowers in May and June. Grows 12 to 15 ft.

4 to 5 ft., \$2.50; 5 to 6 ft., \$3.00

Catalpa Bungei—Umbrella Tree

Catalpa Bungei (Umbrella Tree)—Grafted on stems 5 to 6 ft. high it makes an umbrella shaped top of formal appearance with large, glossy, heart-shaped, deep green leaves. Excellent on either side of entrances, along driveways, etc.

\$1.50 each; 2 for \$2.80

The shrubs reached me in fine shape.
Freeville, N. Y. Mrs. F. B. Lampman
May 21, 1929

Silver Leaved Maple

Silver-Leaved Maple—A beautiful ornamental tree of rapid growth, very desirable for street planting and for furnishing shade for the lawn. Attains height of 60 to 80 ft. Leaves silvery underneath.

8 to 10 ft., \$1.50; 10 to 12 ft., \$2.00

Wier's Cut-Leaved Maple

Maple, Wier's Cut Leaf—A very beautiful tree with slender, graceful drooping branches and with deeply cut or dissected foliage. Grows rapidly to a height of 60 to 70 ft.

8 to 10 ft., \$2.00 each; 10 to 12 ft., \$2.50 each

Maple, Norway—One of the most popular and desirable trees for street planting or for the lawn. Makes a compact, rounded, massive head similar in shape to the Schwedlerii which is pictured on this page. Grows fairly rapidly to 50 to 70 ft., with broad, rich green foliage.

8 to 10 ft., \$3.00; 10 to 12 ft., \$3.50

Maple, Sugar or Rock—A splendid native tree, stately in form and with fine ornamental foliage. Especially good for heavy clay soil.

8 to 10 ft., \$2.50; 10 to 12 ft., \$3.00

Oriental Plane (European Sycamore)—Well-known, vigorous growing tree, especially useful in cities where there is much smoke. A lofty, wide spreading tree growing 70 to 80 ft., with dense, handsome foliage.

8 to 10 ft., \$2.50 each

American Linden or Basswood—A native tree of unusual stately beauty. Foliage luxurious and curious cream colored flowers in July. Grows upright and rapidly to a height of 70 to 80 ft.

8 to 10 ft., \$2.50 each

Poplar, Carolina—The most rapid growing tree we have, attaining height of 75 to 90 ft. of pyramidal form. Useful as a screen or windbreak.

8 to 10 ft., \$1.00 each; 10 for \$ 8.50
10 to 12 ft., \$1.25 each; 10 for \$10.00

Special prices on larger quantities.

Red Leaved Maple

Maple, Schwedlerii (Red - Leaved) — A strikingly attractive tree with gleaming red foliage in the spring, deepening to purplish-green in midsummer and golden bronze in autumn. Makes rounded compact head, similar in form to Norway Maple, growing 40 to 60 feet.

8 to 10 ft., \$5.00 each

10% discount on all orders with remittance before March 1, 1930; 5% from March 1 to April 1, 1930

Lombardy Poplar

Poplar, Lombardy—Admired for its erect, spire-shaped, rapid growth of 60 to 80 ft. Desirable on large grounds, along roads, as a screen or windbreak.

8 to 10 ft., \$1.25 each; 10 for \$10.00
10 to 12 ft., \$1.50 each; 10 for \$12.50

Purple Leaved Plum

Plum, Purple Leaved — Finest purple-leaved small tree growing 12 to 15 ft. Leaves when young are deep crimson changing to dark purple.

4 to 5 ft., \$1.00 each

The Stately American Elm

Elm, American—One of our best known and most beautiful trees of commanding form. Its towering branches spread out at the top like a huge umbrella, attaining a height of 80 to 100 ft. Adds distinction to any landscape.

8 to 10 ft., \$2.00 each; 10 for \$17.50
10 to 12 ft., \$2.50 each; 10 for \$22.50

Tea's Weeping Mulberry

Mulberry, Tea's Weeping — Umbrella-shaped head on stem 6 to 7 ft., with graceful willowy branches drooping to the ground. Beautiful glossy foliage.

\$2.50 each

Cutleaf Weeping Birch

Cutleaved Weeping Birch—One of the most beautiful ornamental lawn trees with graceful, slender, drooping branches, fine cut foliage and silvery white bark. Attains height of 30 to 40 ft.

6 to 8 ft., \$2.50 each; 8 to 10 ft., \$2.75 each

RED FLOWERING DOGWOOD

Cornus Florida Rubra—A beautiful lawn specimen tree of spreading, irregular form growing 15 to 20 ft. high. Handsome rosy-red flowers of large size are produced in spring before leaves appear. Attractive grayish-green glossy foliage turning in autumn to deep red.

Fine, young, strong rooted, well-branched specimen trees, 2½ to 3 ft., \$3.75 each.

Chinese Elm

A valuable new addition to our list of ornamental trees. The most rapid growing of all Elms. Attains a height of 40 to 50 ft., forming a dense, spreading top. Foliage is small and dark green. Will grow nearly twice as fast as the American Elm. 8 to 10 ft., \$3.75.

Flowering Peach—Double red. Beautiful small tree growing 15 to 20 feet. Blooms profusely in May. Leaves come out bright gleaming red. 3 to 4 ft., 75c each

Flowering Crabs

Very desirable small trees for the lawn growing 10 to 15 ft. in height with rounded, compact heads and profuse blooms in early spring.

Japanese Flowering Crab (Floribunda)—Handsome tree, bright rose-colored flowers borne in great profusion in May. Small red fruit liked by birds.

2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50

Redvein Crab (Niedzwetzkyana)—Large red flowers, purplish foliage, red branches. Purplish edible fruit.

2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50

Scheidecker Crab (Scheideckeri)—Small bright rose-colored flowers in great profusion.

2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50

Chinese Flowering Crab (Spectabilis)—Semi-double, coral-red flowers, pale yellow fruit.

2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50

Carmine Crab

Carmine Crab (Atrosanguinea)—Deep purplish-red buds opening to brilliant carmine. Contrasts well with other varieties.

2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50

Save money by ordering early. We will ship at proper planting time.

Bechtel's Double Flowering Crab

BECHTEL'S DOUBLE FLOWERING CRAB

The most popular and most beautiful of the flowering crabs. Bears large, double, fragrant flowers of delicate pink which have the appearance of roses.

SPECIAL PRICES

18 to 24 in., \$.40 each

2 to 3 ft., \$.65 each

3 to 4 ft., \$1.00 each

4 to 5 ft., \$1.25 each

Kanzan Flowering Cherry

Kanzan Flowering Cherry—One of the famous flowering cherries which attract so much admiration in Washington, D. C. Beautiful, glossy pink flowers in great profusion before the leaves appear. Of delightful fragrance. Grows 15 to 20 ft. to 4 ft., \$3.00 each

Willow Babylonica

Willow-Babylonica—Well-known weeping variety forming a large rounded, gracefully drooping head, particularly appropriate for planting along a water side, attaining height of 50 to 60 ft. Requires little attention.

8 to 10 ft., \$1.75 each

Japan Weeping Cherry

Japan Weeping Rose-Flowered Cherry—Delicate pink flowers bloom in early May before the leaves appear and resemble miniature roses. The mass of bloom completely conceals the branches of this beautiful lawn specimen tree.

5 to 6 ft. stems, \$3.50 each

10% discount on all orders with remittance
before March 1, 1930; 5% from
March 1 to April 1, 1930

Wood's Quality Nut Trees

New York State Grown

English Walnut

English Walnut—An exceedingly handsome tree for the lawn. In addition to its value as an ornament, it produces large crops of thin shelled delicious nuts which are always in demand at good prices. Our English Walnuts are New York state grown, especially suitable for climates such as we have here and can be grown successfully in eastern and northern states. Several large commercial orchards of English Walnuts in the vicinity of Rochester produce good profitable crops each season.

1½ to 2 ft., \$.75 each; 10 for \$ 6.50

2 to 3 ft., \$1.00 each; 10 for \$ 8.50

3 to 4 ft., \$1.50 each; 10 for \$12.50

Butternut

Butternut—Produces large, handsome, elongated nuts with rich, sweet oily kernels; very nutritious. Tree grows rapidly and yields large crops in a few years.

4 to 5 ft., \$1.00 each; 10 for \$9.00

Japan Walnuts Picked from a Six Year Old Tree

Japan Walnut—A choice improved variety. Grows with great vigor, forming a handsome head without pruning. Has withstood a temperature of 20° below zero without injury. The shell is somewhat thicker than that of English Walnut, which it resembles in a general way. Kernels are meaty and can be removed entirely. Tree usually begins to bear two or three years after planting.

4 to 5 ft., \$1.50 each; 10 for \$12.50

Black Walnut

Black Walnut—Bears heavy crops of large, round nuts of excellent quality which always bring a good price on the market. The tree is a rapid grower, attaining a large size and majestic form with beautiful fern-like foliage. Very valuable for its timber which enters largely into the manufacture of fine furniture and cabinet ware.

5 to 6 ft., \$1.00 each; 10 for \$9.00

All my trees and shrubs bought of you are growing beautifully.
Schuylerville, N. Y.
June 10, 1929

Mrs. John R. Sarle

One of Our Blocks of Apple Trees. Mr. Wood who shows in the picture is over six feet tall. Most of the trees are higher than his head. Everyone who saw our trees last season declared they were the finest in the state.

XXX

XX

X

This is the way we grade our trees. Note the straight stems, well-shaped heads and abundance of fine fibrous roots secured only by careful, skillful cultivation. Trees like these grow and give satisfaction.

Apple Trees

PLANT standard apple trees 30 to 40 feet apart. If 30 feet apart you will need 48 trees per acre; 40 feet apart, 28 trees per acre.

PRICES OF ALL STANDARD APPLES Except Red Spy

XXX—\$30.00 per 100; XX—\$25.00 per 100; X—\$15.00 per 100.

No Discount on these special prices.

SUMMER VARIETIES

Yellow Transparent—Earliest of all apples. Color when ripe pale yellow; good quality, mild, yet sprightly flavor. Bears at a very early age, frequently when only three years old. Ripens in July.

Red Astrachan—Handsone, bright red apple, medium size, good quality; rather acid.

SAVE MONEY BY ORDERING EARLY
Except at special wholesale prices, 10% discount on all orders with remittance received before March 1, 1930, 5% between March 1 and April 1, 1930.

Wealthy

AUTUMN APPLES

Wealthy—One of the most popular of the Autumn varieties. Medium size attractively striped and splashed with dark red; flesh white, well flavored. Very hardy.

Duchess of Oldenburg—Red striped; tender and juicy. Very hardy.

Maiden Blush—Beautiful waxen yellow with crimson cheek.

Cortland Apple

New Cortland Apple—"The most promising of the tree-fruits that have originated at this station," says the New York State Experiment Station. Resembles the popular McIntosh, but fruits are larger, brighter in color, of richer flavor, and the flesh is firmer and more juicy. Ideal for New York and New England States.

Northern Spy—An ever popular eating apple. Fruit large and attractively striped bright red; juicy, crisp, tender and deliciously fragrant.

Rhode Island Greening—Ranks next in popularity to Baldwin; of highest quality. One of the best flavored cooking apples.

Northwestern Greening—A very hardy, vigorous variety. Best for top working.

Rome Beauty—Large, uniform sized apple; shaded and striped with red. Flesh nearly white; good quality.

PRICES OF ALL STANDARD APPLES

Baldwin

WINTER APPLES

Baldwin—Leading commercial variety in orchards of New York, Pennsylvania, and Ohio. Fruit keeps well in common storage until April. Very largely used in cold storage and for export trade.

Except at the special wholesale prices, 10% discount on orders with remittance received before March 1, 1930; 5% on orders received between March 1 and April 1, 1930.

Delicious Apple

Delicious—A fine winter variety; is growing rapidly in popularity. Fruit large, nearly covered with bright red; flesh finely grained, crisp and melting, juicy with delightful aroma. Good keeper and shipper.

McIntosh

McIntosh—Growing more rapidly in popularity than any other variety as the fruit brings extra good prices on the market. Very attractive red color; uniform size and excellent distinctive flavor. Flesh white, firm, crisp and tender.

New Red Spy — "Whoever grows Northern Spy, either for profit or pleasure should try Red Spy," says the New York State Experiment Station. Has all the good qualities of its famous parent, Northern Spy, but with solid bright red color.

Carman

Carman—Large, early, white peach with deep blush. Spicy flavor; prolific.

Champion—Large, white freestone variety; red cheek, sweet, rich, juicy. August.

Crawford Early—One of the best flavored varieties. Large, rich yellow; red cheek.

Crawford Late—Superb yellow peach of large size and excellent quality. Ripens last of September.

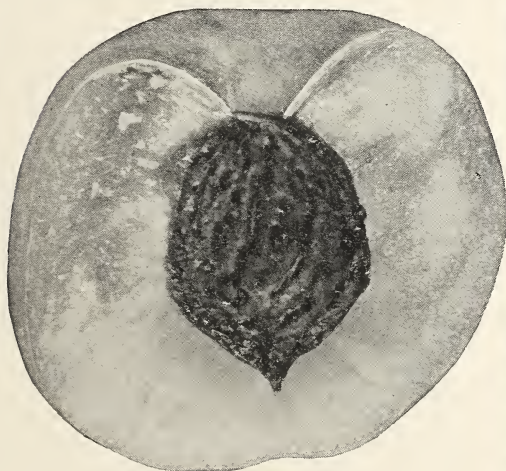

One Hundred Thousand Peach Trees in This Block on Our Valley Farm—The Finest Grown

PEACHES (*continued*)

Prices on Page 50, opposite

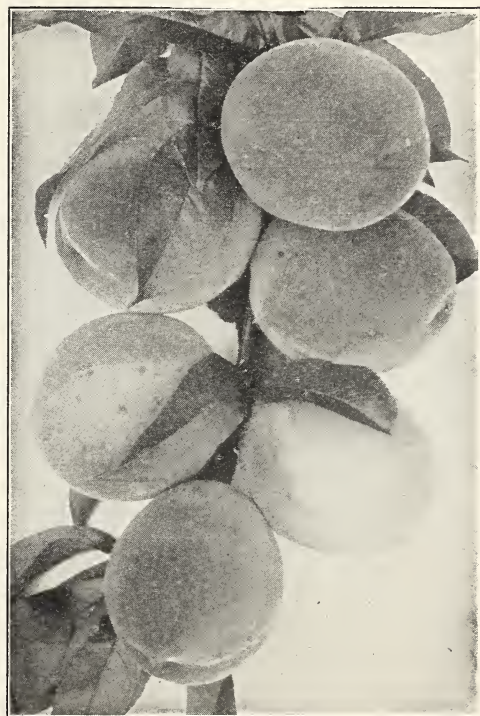

Elberta—The most popular commercial peach on the market. The fruit is large, yellow with red cheek. Juicy and well flavored. Ripens ten days later than Early Crawford.

Hale

Hale—The skin is deep crimson and without fuzz. Flesh golden-yellow, firm and has delicious flavor. Good keeper and shipper. Ripens a few days before Elberta.

Rochester—Earliest yellow peach with red cheek. Flesh yellow, juicy and delicious. Ripens two weeks earlier than Early Crawford.

Branch from Wilma Peach Tree

New Wilma—A new peach which is highly recommended by the New York State Experiment Station, which is destined to become, they say, a rival of the Elberta. About a week later than Elberta, about the same color, size, and of better quality. Trees vigorous, productive and hardy enough to withstand the coldest winter recorded in half a century in New York State.

Except at special wholesale prices 10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1.

Peaches

(Continued)

Dr. Worcester—One of the finest flavored peaches in existence. Valuable as a commercial variety and excellent for the home garden. The fruit is very large, golden-yellow overlaid with red. Flesh is yellow, firm, juicy, and of rich delicious flavor.

10% discount on all orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930.

Black Tartarian

Gov. Wood—One of the best cherries; fruit large, yellow nearly covered with bright red. Flesh tender and juicy and of distinctive flavor.

Lambert—One of the largest of the sweet cherries. Skin is dark purplish red, almost black when ripe. Flesh is firm, rich and juicy.

Napoleon (Royal Ann)—Ideal light-colored sweet cherry; attractively colored pale amber cheek. Fruit large and of delightful flavor.

Schmidt's Bigarreau—Fruit of large size and deep mahogany color. Flesh is dark, tender and juicy. Late.

Windsor—The standard of excellence. Hardiest of the sweet cherries; large, very dark red with firm, tender and juicy flesh. Late.

Black Tartarian—One of the most popular of the dark sweet cherries. Fruit large with small pit. Very dark in color, almost black; of surpassing quality, excellent for table use and canning. Trees are very vigorous and produce very heavy crops each year.

The trees were a very fine lot and are growing very well indeed.
Middlebury, Vt.
June 8, 1919

C. L. Witherell

I intended to write before now and tell you how well pleased we are with the 165 pear trees received from you. This is the finest lot of nursery stock we have ever seen. The shipment arrived in excellent condition.

Special Wholesale Price on Plums for 50 or more trees, XXX—\$30.00 per 100; XX—\$20.00 per 100.

No discount on these special prices.

Abundance—One of the best Japan plums. Fruit large, bright cherry red. Flesh yellow, firm, juicy and of excellent flavor.

Bradshaw—Very large, dark, violet-red plum; juicy and good. A productive valuable variety.

Burbank Plum

Burbank—Resembles Abundance except it is deeper in color and ripens later. August.

Lombard—Medium size, dark red, juicy. A good early bearer, strong grower and hardy.

Shropshire Damson—A medium size dark purple variety, very fine for preserving. Sells well on the market. The tree is hardy and very prolific. Ripens in October.

Except at special wholesale prices, 10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930.

German Prune

German Prune—The standard purple prune; rich, juicy and of fine flavor. The tree is upright, vigorous and very productive. Ripens in September.

OTHER STANDARD PLUMS

In addition to the varieties described above, we have also the following well-known kinds of plums offered at the same prices:

| | |
|----------------|-----------------|
| Grand Duke | Pond's Seedling |
| Green Gage | Red June |
| Reine Claude | Shipper's Pride |
| Moore's Arctic | Yellow Egg |

Apricot Trees

| | | |
|--------|-----------|----------------------------|
| 2 yrs. | XXX grade | \$1.00 each; 10 for \$8.50 |
| 2 yrs. | XX grade | .85 each; 10 for 7.50 |

Moorpark Apricot

Moorpark—One of the largest, most satisfactory Apricots. Yellow with attractive red cheeks; firm, juicy and very productive. Always dependable. Ripens in August.

Grape Vines

Two Years Old, Extra Strong, Well-Rooted

EVERY garden should have a dozen or more grape vines. They can be trained up the side of a building, along the garden fence and on trellises occupying but little room and furnishing an abundance of healthful fruit.

Concord—More Concord grapes are planted by vineyardists than all other varieties combined. Berries are large, black, covered with a rich bloom. Very prolific.

20c each; 10 for \$1.50; 100 for \$10.00

Lindley—Dark red, medium large berries; flesh tender, sweet and aromatic; ripens early.

20c each; 10 for \$1.75; 100 for \$15.00

Lucile

Lucile—Bright red, very hardy and vigorous; very productive, early.

20c each; 10 for \$1.75; 100 for \$15.00

Moore's Early—Berries black with heavy blue bloom; quality better than Concord.

20c each; 10 for \$1.75; 100 for \$15.00

Niagara—Standard white variety, berries larger than Concord.

20c each; 10 for \$1.75; 100 for \$15.00

Worden—Black, larger and a few days earlier than Concord.

20c each; 10 for \$1.75; 100 for \$15.00

New Ontario Grape

New Ontario Grape—Combines the good vigorous habits of vine characteristic of American Grapes and the splendid quality of fruit found in European varieties; a prolific bearer, of excellent flavor, juicy, tender, aromatic and sweet. Ripens the last of August fully two weeks earlier than Niagara.

50c each; 10 for \$4.50

For 5 cents per plant extra we prepay postage to the fourth parcel post zone

NEW LATHAM
RED RASPBERRY

LATHAM

The New Big Red Raspberry

PROF. W. H. ALDERMAN, Chief, Division of Horticulture, University of Minnesota, says of the Latham Raspberry:

"The variety not only is resistant to our winter conditions, but is one of the most productive raspberries with which we are familiar.

"Its attractive coloring and firmness give it such favorable appearance on the market that it ordinarily commands a premium of fifty cents a case over the price of the ordinary raspberry."

Our Latham Raspberries do not "run out"—The chief cause of raspberries running out is Mosaic disease, which weakens ordinary plants until they become unprofitable. Our Latham raspberries are Mosaic free and acceptable anywhere under the most rigid inspection.

Latham is Perfectly Hardy—As far North as Winnipeg, Canada, it has never winter-killed.

Its Productiveness is Truly Sensational—Figures of actual yields show that Latham excels all other varieties in quantity of yield. There are records of fields that have produced over \$1000.00 per acre each season.

2 for 30c; 10 for \$1.25; 25 for \$1.75;
100 for \$5.00

Other Red Raspberries

Raspberries are a very profitable crop both for commercial growers and for the home garden. Plant 3 ft. apart in rows 6 ft. apart. Do not plant too deeply. Set them so that the sprouts are just below the surface of the ground; 2420 plants required per acre.

Prices of All Varieties of Red Raspberries Except Latham

2 for 25c; 10 for \$1.00; 25 for \$1.50;
100 for \$3.50; 1000 for \$25.00

Wood's Improved Cuthbert—This has been the leading commercial variety for years. Large red berries of rich flavor.

St. Regis (Everbearing)—A valuable variety; fruit commences to ripen very early and continues until October. Large, bright crimson; flesh firm and meaty. Very prolific, and good shipper.

Columbian—Purple berry of rich sprightly flavor. Very popular for canning and exceedingly productive. Do not plant too deeply.

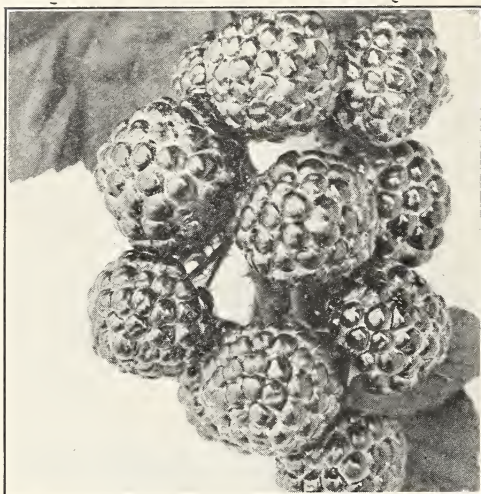

We prepay postage on Raspberries to fourth zone for 10c per 10 extra or 20c per 25

Black Raspberries

DO not plant Black Raspberries too deeply. Set them so that the sprouts are just below the surface of the ground. Plant 3 ft. apart in rows 6 ft. apart; 2420 plants per acre.

2 for 25c; 10 for \$1.00; 25 for \$1.50;
100 for \$3.50; 1000 for \$25.00

Black Diamond—One of the best. Fruit large and sweet. Largely used for drying.

Plum Farmer Black Raspberries

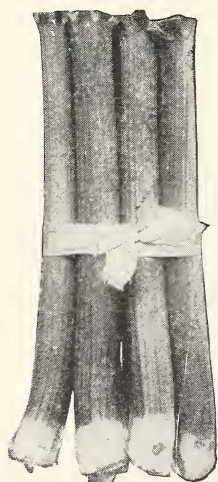

Plum Farmer—A great favorite for market and home use. Brings highest prices.

Rhubarb

(Pie Plant)

Rhubarb is so easily grown and is useful in so many different ways for pies, sauces, jellies, cakes, puddings, etc., that every garden should have at least a few roots. Easily preserved and kept fresh the entire season. Cut stalks into small pieces and put them into fruit jars. Fill the jars with cold water and seal up tightly until ready to use.

15c each; 10 for \$1.25;
100 for \$10.00. By mail
add 5c each; 25c per 10.

Rhubarb

Blackberries

Plant 4 ft. apart in rows 7 ft. apart; 1550 plants per acre.

2 for 35c; 10 for \$1.25; 25 for \$1.50;
100 for \$4.00; 1000 for \$35.00

Eldorado—A valuable variety, medium size, jet black; rich and sweet. Very productive.

Blower Blackberries

Blower—"The giant of all blackberries." Very hardy and enormously productive.

We prepay postage on berry plants for 10c per 10 extra or 20c per 25 to fourth zone.

Asparagus

(Two-Year-Old Roots)

One of the most delicious and easily grown vegetables.

Washington — A new rust-resistant variety fast taking the lead over all other kinds for size, vigor, and tenderness as well as disease resistance.

25 for \$1.00; 100 for \$2.50;
1000 for \$20.00

Mammoth—Vigorous large shoots that remain white and tender.

25 for 85c; 100 for \$2.00;
1000 for \$15.00

Asparagus roots by mail —Add 10c per 25; 15c per 50; 25c per 100.

10% discount on orders with remittance before March 1, 1930; 5% between March 1 and April 1, 1930

Fertilizers

WOODLAWN SHEEP MANURE

FOR lawns, gardens, private grounds, parks and golf courses, our Pulverized Sheep Manure is a most effective fertilizer. It is light, dry, easy to use and will not burn grass or plants. A natural fertilizer which feeds your lawn and garden throughout the season. Apply as a top dressing at the rate of about 100 lbs. to 1000 sq. ft.

| | | | |

I wish to thank you for the trees and shrubs from your nursery. They are wonderful. In two years they have made fine growth. I am very much pleased.
Astoria, L. I. John S. Smerley
January 28, 1929

Granulated Peat Moss

(For Permanent Soil Improvement)

The texture of soil is fully as important as the amount of plant food or fertilizer it contains. All soils need humus or decayed vegetable matter. Granulated Peat Moss is humus in its purest and best form. It will make heavy clay soil that packs solidly more friable and light sandy soil more retentive of moisture. It should be applied liberally as a top dressing for the lawn, as a mulching around shrubs and as a top dressing for flower beds. It is ideal for permanently improving your soil and contains no fungus or disease. Bales about the size of a bale of hay, \$4.00 each. In small quantities, 50c per bushel.

TREE PROTECTORS

To keep mice and rabbits from eating the bark off young trees. Made of sheet of basswood 18 inches long and 9 inches wide. Soak in water and then roll around the trunks of the trees, tying with twine.

1000 for \$25.00; 100 for \$3.00 for 50 or more.
Less than 50—5c each.

Famous Woodlawn Grass Seed

WOODLAWN Grass Seed Mixtures are composed of the very best grades of grasses used in correct proportions to produce a thick sod of rich, deep green throughout the entire growing season. No cheap light seed of any description is used. When you buy this mixture you are paying for seed which will grow, and not a large percentage of chaff, inert matter and dirt. Critical landscape gardeners use thousands of pounds of this mixture each year. Use one pound for each 300 sq. ft.

WOODLAWN GRASS SEED MIXTURE

The Best for Exposed Locations

Helpful Hints

Especially for the Inexperienced

TO have the greatest satisfaction and success from the splendid, strong, well-rooted plants, shrubs and trees which are shown in this book, it is necessary only to understand and conform with the simple laws of nature governing growing things. We give below a few of the main general principles which apply to practically all kinds of nursery stock.

Drainage is very important. Nearly all kinds of plants, shrubs and trees need plenty of moisture, but no kind of vegetation should have water standing around it on the surface of the ground.

Preparation of Soil—Spade soil deeply making it well mellowed. Heavy clay soil which packs solidly needs humus such as Granulated Peat Moss which can be worked into the soil to make it more friable and easy to break up. Light sandy soil should also have Granulated Peat Moss mixed liberally with it to make it more retentive of moisture. Granulated Peat Moss is described on Page 59. This material can be used in any quantity with perfect safety.

Plant Carefully—Dig holes large enough to allow all of the roots of your plants or trees to spread out naturally without bending. Do not use any fertilizer or manure so that it comes in contact with the roots. Pack fine soil around the roots, settling it with water poured in the hole when it is partly full. Then fill up to the top with dry soil. All kinds of trees should be set about 2 or 3 inches lower than they were in the nursery row. The same rule applies to shrubs. Roses should be set so that the crown or place where the rose was budded is about 2 inches below the surface of the ground.

Fertilizers—Although, as we have said, fertilizer or manure should not be applied so that it comes in contact with the roots at planting time, nearly all soil should be enriched with a suitable plant food, like those described on Page 59, applying it on the surface of the ground around the plants after they have been planted. Rain will soon wash the fertilizer down to the roots of the plants to feed them when they become established.

Pruning—It is necessary to reduce the tops of shrubs and trees at time of planting if best results are to be obtained. There are two methods of pruning shrubs, viz., thinning out the growth and cutting back the tops. Which method should be used depends upon the kind of the shrub. Usually it is necessary to remove about one-third to one-half of the top growth.

Pruning Trees—The same general principle should be observed. Remove all but the main branches which will make a good symmetrical head.

We are always glad to give information about planting and care of nursery stock to anyone who wants it. We have an especially prepared booklet which we shall be glad to mail free to anyone upon request.

Two New Shrubs of Real Merit

Beauty Bush

(*Kolkwitzia Amabilis*)

New Beauty Bush

This exceedingly handsome shrub discovered in Central Asia is one of the finest new varieties we have seen. It attains a height of 6 to 9 ft., is perfectly hardy and the long arching branches are covered in spring with clusters of small tubular or trumpet-shaped flowers borne in such profusion that the bush is one cloud of delicate pink with the gracefully drooping branches reaching to the ground. The foliage is also very handsome.

Strong, well-rooted 2-year-old plants, \$2.00 each.

SPECIAL VALUE

One each of these two choice new varieties for **\$3.00** Postpaid

New Korean Spirea

Korean Spirea

(*Spirea Trichocarpa*)

This splendid new shrub is enthusiastically acclaimed the finest Spirea yet discovered. It is strong growing, attaining a height when matured of 4 to 6 ft. tall, forming a large, globe-shaped bush which is covered with large rounded clusters of snowy white flowers marked with darker eyes. Blooms about two weeks later than the popular Spirea Van Houttei. It is perfectly hardy as far north as Montreal. It retains its beautiful glossy green foliage late into the Autumn.

Strong, 2-year-old, field-grown plants, \$1.50 each.
